

Vegetable.machine.animal tech specs

**Drums:**

Due to travel weight restrictions I will be travelling with minimal drum parts.

I need the following:

- 1 kick drum with pedal
- Snare and stand
- Floor tom
- 1 ride cymbal & stand
- Hit-hat w/stand
- Study stool - I can be quite mobile in performance

I am always respectful, and appreciative, of the gear I am let to use.

For the synth:

x1 **small table** - if possible to sit over the kick [to also hold, gathered percussion, plants, and electronic equipment]

x1 **DI** - The synth has stereo out, I travel with a 2 metre jack-to-jack cable.

Closer to the show I shall discuss my pot-plant needs
